MODULE 5 – WORKSHEET 4

Situation: The student asks his friend to go to his house after school to help him with the science project. He says that he needs his friend's help otherwise he cannot complete the project. He also tells that if he cannot get a good mark in science, his parents will be very upset about it. However, his friend knows that the science teacher told students 'Do your homework alone' and his friend is tired and just want to go home, finish his homework and sleep. But his friend insists that he should come to his house to help with the science project.
